PremierOrder

Digital signature without visiting the bank

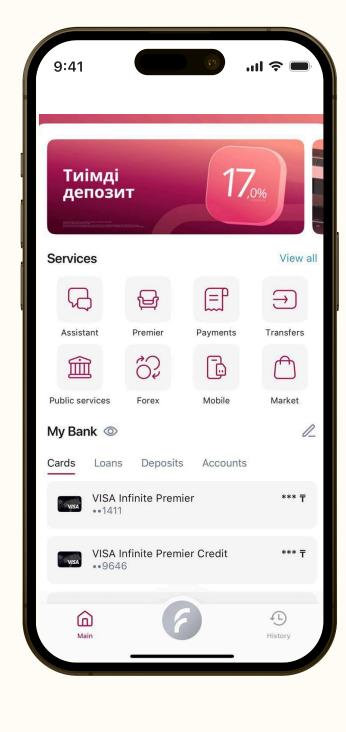

A unique service for premium customers allowing them to manage finances without visiting the Bank and superfluous formalities.

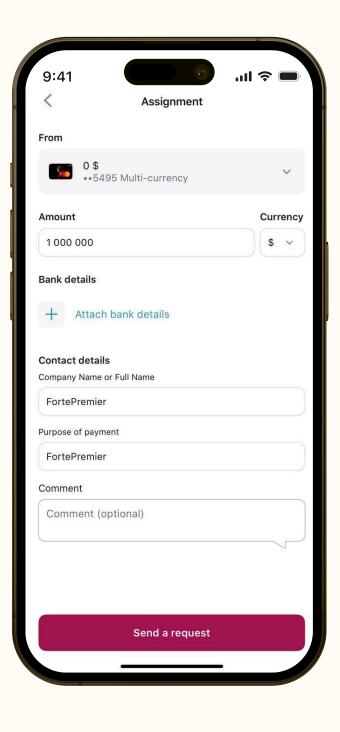

Now you may give a task to a personal banker online and sign the banking documents remotely via the PremierOrder service.

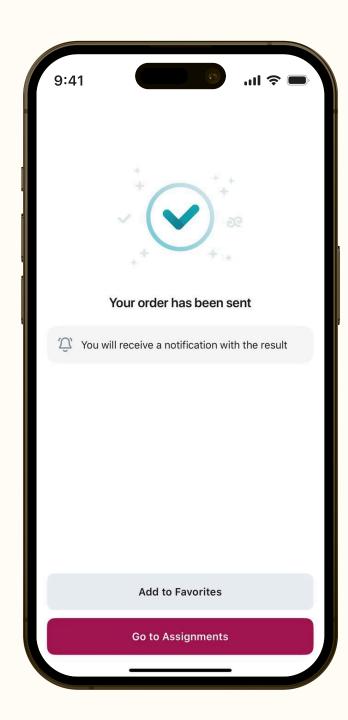

PremierOrder technology makes capital management simpler and faster, allowing you to:

- Create a task from anywhere in the world;
- Sign a banking document instantly;
- Manager finances and business non-stop.

Use the service in the Forte app:

Step 1.

Open the "Premier" section in the app

Step 2.

Describe your request and send the application

Step 3.
Wait for the request to be handled

ForteForex

A currency exchange office in your pocket

Currency exchange at the bank's rate is not always beneficial for a customer. Forte offers another approach – exchange currency sensibly and on your own terms via ForteForex.

ForteForex is an internal platform for currency exchange between the customers within the Forte ecosystem, without any intermediaries and fees, at your own exchange rate.

How it works:

- 1. Select a currency;
- 2. Set your own exchange rate and the transaction amount;
- 3. ForteForex finds a counter offer;
- 4. The transaction takes place automatically.
